

Digestamace[®]

Performance Paste For all classes of livestock

What is Digestamace[®] Performance Paste?

Digestamace[®] Performance Paste is an ideal combination of natural essential oils, direct fed microbials, amino acids, electrolytes and vitamins. Digestamace[®] paste is specifically formulated to help support normal energy levels, appetite, and digestion in livestock. Suggested during times of stress like freshening, weaning, vaccinating, handling, weather changes, shipping, receiving, and in hospital pens.

Advantages of Digestamace[®] Performance Paste

The enzyme combination in Digestamace[®] Performance Paste helps maintain appetite, digestion and performance even during times of stress. Digestamace[®] Performance Paste is an ideal product for all classes of livestock in situations where stress would otherwise deter intake and performance as well as affect health.

- Ready to use AO fermentation enzymes to help maintain fiber digestion
- Contains highly bio available chelated minerals
- Select vitamins to maintain appetite and digestion
- Easy to use dial-a-dose for accurate feeding and no waste

Ingredients and Guaranteed Analysis

Guaranteed Analysis per 10 gm (minimum)

L-Glutamine.....	0.025%	2.5 mg
L-Arginine.....	0.025%	2.5 mg
L-Lysine.....	0.013%	1.3 mg
Selenium.....		1 mcg
Vitamin A.....		.50,000 IU
Vitamin D ₃		6,500 IU
Vitamin E.....		60 IU
Niacin.....		20 mg
Riboflavin.....		100 mg
Vitamin B ₁₂		300 mcg

Storage:

Store in a cool, dry place.
Avoid freezing.

Caution:

For animal use only.
Keep out of reach of children.

Ingredients: Propylene Glycol, Cane Molasses, Dextrose, Silicon Dioxide, Dried Egg Product, Lactic Acid, dl-Alpha-Tocopheryl Acetate (Vitamin E), Origanum Extract, Yucca Schidigera Extract, Inulin, Niacinamide, Vitamin A Acetate, Methylparaben (preservative), Vitamin D₃ Supplement, L-Glutamine, Zinc Methionine, Propylparaben (preservative), L-Lysine, L-Arginine, L-Proline, DL-Methionine, L-Tryptophan, L-Serine, Dried Bacillus subtilis Fermentation Product, Dried Aspergillus oryzae Fermentation Product, Dried Trichoderma viride Fermentation Product, Dried Saccharomyces cerevisiae Fermentation Product, Pyridoxine Hydrochloride (Vitamin B₆), Ascorbic Acid (Vitamin C), d-Calcium Pantothenate, Vitamin B₁₂ Supplement, Choline Bitartrate, Folic Acid, Riboflavin Supplement, and Sodium Selenite.

Feeding Recommendations:

Calves:	Under 400 lbs - 5 gm/head/day
	Over 400 lbs - 10 gm/head/day
Adult Cattle:	15 to 20 gm/head/day
Horses:	15 to 20 gm/head/day
Sheep and Goats:	5 gm/head/day
Swine:	5 gm/head/day

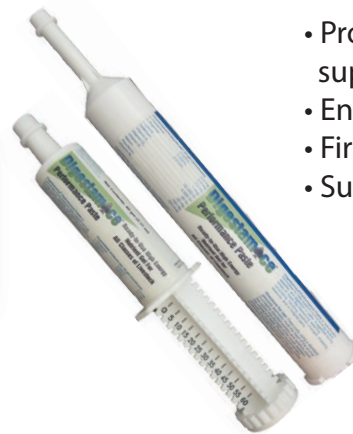

If conditions do not improve, consult your veterinarian.

Directions for use: Use a standard gel/paste applicator for 300gm tube. Hold the head of the animal in a slightly elevated position and carefully place the nozzle into the back of the throat between the cheek and teeth. Provide recommended amount. Do not give to animals that are unable to swallow. Provide fresh water at all times.

Each click of a standard gel/paste applicator provides 5 gm. One full pull (3 clicks) delivers 15 gm.
