

Digestamace[®]

Performance Pellets For all classes of livestock

What is Digestamace[®] Performance Pellets?

Digestamace[®] Performance Pellets is an ideal combination of direct fed microbials, select amino acids, and minerals for livestock. Suggested during times of stress like freshening, weaning, vaccinating, handling, weather changes, shipping, receiving, and in hospital pens.

Advantages of Digestamace[®] Performance Pellets

The enzyme combination in Digestamace[®] Performance Pellets helps maintain fiber digestion, intake, production and overall growth even during times of stress. Digestamace[®] Performance Pellets is an ideal product for all classes of livestock in situations where stress would otherwise deter intake and performance as well as affect health.

- Concentrated source of bacterial and fungal enzymes to better fiber digestion and nutrient utilization
- Select chelated minerals
- Ready to use pellet form to minimize waste

Ingredients and Guaranteed Analysis

Suggested Use: Digestamace[®] Performance Pellets can be top-dressed or mixed in complete feed.

Guaranteed Analysis

Crude Protein, min.....	19.0%
Crude Fat, min.....	2.0%
Crude Fiber, max.....	11.0%
Acid Detergent Fiber, max.....	6.0%

Storage:

Store in a cool, dry place.

Caution:
